Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Receipt is acknowledged of the consent of assignee under 37 CFR 1.172 and the amendment, filed on 1/19/2004, which have been entered in the file. Claims 1-8, 15, 17-22, and 24-28 are pending.

It is noted that the amendment, filed on 1/19/2004, does not comply with 37 CFR 1.173(b). All amendment changes must be made relative to the patent to be reissued. Pursuant to 37 CFR 1.173(d), any such changes which are made to the specification, including the claims, must be shown by employing the following "markings:"

(A) The matter to be omitted by reissue must be enclosed in brackets; and

(B) The matter to be added by reissue must be underlined, except for amendments submitted on compact discs (pursuant to 37 CFR 1.96 for computer printouts or programs, and 37 CFR 1.825 for sequence listings). Matter added by reissue on compact discs must be preceded with "<U>" and end with "<\U>" to properly identify the material being added.

While this office action is based on the changes presented in the amendment, filed on 1/19/2004, a copy of the amendment in compliance with 37 CFR 1.173(b) must be filed in response to this office action.

Reissue Applications

1. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-8, 15, 17-22, and 24-28 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

Allowable Subject Matter

3. Claims 1-8, 15, 17-22, and 24-28 would be allowable over the prior art of record upon the filing of an amendment in compliance with 37 CFR 1.173(b), the receipt of the original patent or a statement as to loss or inaccessibility of the original patent, and the filing of a supplemental reissue oath/declaration (as noted above).

4. The following is a statement of reasons for allowance and for the indication of allowable subject matter: While various prior art of record individually teaches some of the features of the claimed invention (for example: Uno et al (US 4,286,146) teaches storing values on a hardcopy recording medium by encoding the values in corresponding glyph shapes (see figure 16); Vinal (US 3,798,319), Mansour (IBM Technical Disclosure Bulletin, vol. 26, no. 2, pages 766-767, July 1983), and Bossen et al (US 6,179,207) all teach self-clocking codes), without the benefit of applicant's

teachings, there is no motivation for one of ordinary skill in the art at the time of the invention to combine the various features taught by the prior art in a manner so as to create the claimed invention.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
